RIOT IN SAN FRANCISCO

SAN FRANCISCO, SEPT. 10.—THE QUESTION OF THE ENFORCEMENT OF THE OPEN-SHOP RULE WAS PRESENTED TO THE CARMEN'S UNION BY THE UNITED RAILROADS THIS AFTERNOON IN A MANNER THAT PROVOKED A STREET DISTURBANCE. AN ELECTRIC CAR WAS RUN OUT OF THE FILLMORE STREET CAR BARN WITH A NON-UNION CREW AND FOUR ARMED GUARDS. WHEN THE CAR REACHED THE STREET A CRY OF "SCAB" WAS RAISED AND A CROWD OF MEN STARTED IN PURSUIT. THE CAR WAS OVERTAKEN AND THE CROWD SWARMED ABOARD, BROKE OFF THE TROLLEY ARM AND DEMOLISHED THE WINDOWS. THE CREW AND GUARDS LEFT THE CAR WHEN THE CROWD TOOK POSSESSION. A SECOND CAR, IN CHARGE OF A NON-UNION CREW, WAS THEN TAKEN OUT OF THE BARN WITH THE OBJECT OF BRINGING THE DISABLED CAR BACK. AFTER IT HAD TAKEN THE WRECKED CAR IN TOW IT WAS ALSO ATTACKED AND BOTH WERE RUN INTO A BRICK PILE IN A DAMAGED CONDITION. LATER ON THE COMPANY SUCCEEDED IN REMOVING BOTH CARS TO THE OAK STREET BARN.

BIG AUTOMOBILE TURNS UPSIDE DOWN OAKLAND WOMAN IS KILLED BERKELEY SCHOLARS BADLY INJURED

MISS CAMILLE MILNER.

JOHN D. ISAACS, JR.

WALTER M. CLARKE.

MISS MARIAN VAN HORN.

Death rode in an automobile which left the city late Saturday with a party of pleasure seekers and claimed as a victim Mrs. Camille Milner, whose home is at 435 Twenty-second street. The vehicle overturned near Milpitas and Mrs. Milner was crushed beneath the seat. Miss Marian Van Horn, a student at the University of California, another occupant of the vehicle, was injured and it is not yet known whether or not she will survive. These women were accompanied by two men who sustained scratches and bruises, but who were not seriously injured. The car was driven by John D. Isaacs, Jr., aged 23 years, son of John D. Isaacs, a member of the Board of School Directors of this city, and also consulting engineer for the Harriman railroad. Isaacs was accompanied by his friend, Walter Clark, son of J. R. Clark of Los Angeles, and a nephew of Senator Clark of Wyoming. He is also a student of the University of California, and resides at 2330 Telegraph avenue. Isaacs' home is at 1154 Alice street in this city.

WOMAN KILLED.

Mrs. Milner was killed by the overturning of the machine, having been caught under the heaviest part of the vehicle.

Miss Van Horn was also pinned under the overturned car, but was extricated in time to save her life. She was taken to a sanitarium in San Jose and there remains, attended by her mother. The party left Oakland about 8:30 o'clock last Saturday night, intending to make the run to San Jose. When near Milpitas Isaacs came suddenly up to a right-angle turn and tried to go around it without shutting off the power of his machine. The result was that the auto was overturned, falling into the ditch beside the roadway. The women were on the inside of the machine, and were caught beneath it when the accident took place.

Both Isaacs and Clark endeavored to rescue the women, but found they were unable to do so. They then went to Milpitas and secured assistance, and in this manner pulled Miss Van Horn from her perilous position. When Mrs. Milner was dragged from underneath the auto it was found that life was extinct. Mrs. Milner is the wife of a traveling man, who was formerly in the grocery business at the corner of Sacramento and Larkin streets, San Francisco.

SON FORBIDDEN AUTO.

The accident has almost prostrated John D. Isaacs, Sr., the father of the young man who drove the machine.

S. P. TRAIN IS ROLLED INTO A DITCH

Twenty-Five People Are Hurt in an Accident in the South.

LOS ANGELES, Sept. 10.—The second section of Southern Pacific Coast Line passenger train No. 10, south-bound, was wrecked at Sea Cliff, a siding twenty miles south of Santa Barbara, this morning. Three coaches left the track and rolled into a ditch, according to meager details. It is believed no one was killed, but fifteen or more persons were injured. Information from the Santa Barbara station states that the wreck occurred about 10:30 this forenoon. The Southern Pacific headquarters in this city has no details of the wreck. A relief train has been sent out from Santa Barbara. The wreck occurred about 10:30 this forenoon. According to later information from the wreck twenty-five persons were injured, most of them but slightly. No one was killed, but one or two are said to have been fatally injured. The baggage, mail cars and two coaches left the rails and went over an embankment. Physicians went from Ventura to the wreck, which is ten miles west of that place, and the injured are expected there at any moment.

CANNON SHOTS BRING TERROR

Sound of Big Guns Drives Women to Hysterics—Christians Saved.

WARSAW, Sept. 10.—According to the latest advices received here from Siedlce, the artillery opened fire at 8 o'clock this morning. The cannon shots were directed against the buildings from which the terrorists had fired on the soldiers. The sound of the big guns sent a number of women into a state of hysterical fear. Over 150 Jewish shops were looted. Christians escaped the massacre, by hanging holy images and crosses in their windows. The soldiers got quite out of hand. Most of the prisoners arrested are Jews and they were beaten without mercy. The Jews of Warsaw are in fear of an attack.

CALL OPERA SINGERS CONTRACT LABORERS

NEW YORK, Sept. 10.—Fifty members of the Metropolitan opera chorus arrived today on the steamer La Bretagne. Later the chorus may have to go to Ellis Island to prove that they are not contract laborers. A theatrical agent, John J. Barry, filed a complaint with the Department of Commerce and Labor in Washington and with the immigration authorities in this city, in which he alleges that the chorus singers come under the contract labor law, in that they are laborers brought to this country under contract.

OIL MAN PIERCE PUT UNDER ARREST

ST. LOUIS, Sept. 10.—H. Clay Pierce, chairman of the executive board of the Waters-Pierce Oil Company, was arrested today on an attachment issued and served several weeks ago to compel his attendance as a witness in a civil suit. Mr. Pierce's attorney had guaranteed his presence today at the hearing of the oil company's suit against the Southern Hotel.

WIDOW AND SON CUT OUT OF WILL

Oelrichs Leaves Estate to Brother and His Sister.

NEW YORK, Sept. 10.—The will of Hermann Oelrichs was filed today. It cuts out the widow and son and leaves his estate to his brother and sister. Mr. and Mrs. Oelrichs had been estranged for some time and when announcement was made of Mr. Oelrichs' death it was reported that he had not seen or communicated with his son for years. The will contains the following: "As my wife has an ample fortune of her own, I make no bequest or devise to her. As my son, Hermann Oelrichs, Jr., is the heir and next of kin of my wife and will doubtless be amply provided for by his mother in her last will and testament or by the law in the event of her intestacy, I make no bequest or devise to him other than the specific bequest contained in this will to the effect that he gets nothing more than some personal effects."

BEATS WIFE UNMERCIFULLY

Policeman Discovers Husband Brutally Treating His Helpmeet.

BERKELEY, Sept. 10.—A flagrant case of wife-beating was brought to the attention of Officer Becker of the Berkeley police force yesterday morning. As Becker was passing 2103 McGee street two boys ran out of the house and declared that their father was going to kill their mother. Becker entered the house, which is occupied by John J. O'Neill and found that almost everything breakable had been wrecked. O'Neill had beaten his wife until the blood flowed from the wounds on her face. Becker arrested O'Neill for disturbing the peace. Mrs. O'Neill promised to go to Marshal Vollmer today and swear to a battery charge, but she has not yet appeared.

WAS NOISY WITH HIS SKATES ON

There was an incipient riot last night about 9 o'clock at the skating rink in Idora Park and it was only quelled after several heads had been smashed and one man placed under arrest. The man arrested was Fred Anderson, who has been charged with disturbing the peace by Special Officer McCutcheon, who placed the man under arrest. It is alleged that Anderson's actions became offensive and that he was admonished by one of the officers at the rink. The man did not heed the warning. It is claimed, and McCutcheon attempted to arrest him. Several of Anderson's friends at- tempted to interfere, and a rough house ensued, in which the officers used their clubs to good effect.

MOUNTAIN SLIPS AND KILLS MANY

Semi-Liquid Sands Have Obliterated Town of Kwareli.

TIFLIS, Sept. 10.—Practically without warning the side of a mountain rising above the township of Kwareli broke away and a sea of semi-liquid sand, stones and mud swept down on the township and overwhelmed and obliterated it. Some 250 persons have been buried alive. Fifty-five bodies already have been recovered from the mire, which is six feet deep. In addition to the lives lost countless heads of cattle perished and the crops were destroyed. Kwareli township occupies an area of five kilometers of the district of Telavi, in the Caucasus. Similar disasters are common occurrences in Caucasian valleys.

CALHOUN NOT QUITTING YET

Head of United Railroads Isn't Going to Resign at Present.

NEW YORK, Sept. 10.—Ladenburg, Thilman & Co., bankers in this city, received a telegram today from Patrick Calhoun, president of the United Railroads of San Francisco, in which Mr. Calhoun denies that he is to resign from the company. The telegram follows: "I have no intention of resigning. You are authorized to deny the report emphatically and state that my interest in the property is just as great as ever."

ARE SENT HOME

SAN FRANCISCO, Sept. 10.—About 250 of the men who were brought to this city to break the strike of street car men on the United Railroads of this city were sent back to their Eastern homes today, their fares being paid by the company. These men preferred to return, but a much larger number of the strike-breakers, some of whom were used in that capacity, have decided to remain here, all being assured of employment.

STABBED LEGISLATOR NOW OUT OF DANGER

PITTSBURGH, Sept. 10.—Lawrence E. Cook, the legislator who was stabbed yesterday by Andrew McMillan, a member of the House of Representatives, was reported to be out of danger today. Mr. MacMillan, over whom the quarrel started, has been located and summoned to appear at the hearing.

"COME"

To think and "think to come" would be a bad motto for a summer Chalet. What if I wonder what that word means in the original language of whatever language it came from. The words had no literature worth mentioning, but I'll wager something the braves knew the meaning of "Chau" in all the Indian dialects. Whether to eat with your fingers, with chopsticks or with a full regalia of Rogers' 1847, you don't need to learn the sailing habit. That comes as natural as going to Lehnhardt's for ice cream.

WARFARE OF VENGEANCE

Passengers Arriving at Warsaw Give Account of Siedlee Massacre.

ST. PETERSBURG, Sept. 10.—It is impossible to obtain the details of the trouble at Siedlee as the town was surrounded yesterday by soldiers and nobody was allowed to enter. Passengers, however, who arrived at Warsaw during the night gave the following account of the slaughter.

After the murder of a policeman by terrorists on Saturday night and the firing of a volley by troops into the assembled crowd which resulted in the killing of two citizens and wounding of two more, the terrorists decided to exact vengeance by inaugurating a general campaign against the police and troops, similar to the recent activity at Warsaw.

Sunday morning twelve patrolmen and soldiers were killed. As a result of this the Lithuanian regiment in anger left its barracks in the afternoon and marched into the Jewish quarter, shooting right and left as it went.

TROOPS AND CROWDS.

The troops were joined by crowds of hooligans, who co-operated in the plundering and wantonly destroyed everything they were unable to carry off. The sale of booty by the soldiers went on under the very eyes of their officers.

Late in the afternoon the Kaluga regiment arrived on a special train from Blaza and measures were instituted to put a stop to the program. In spite of this, however, the shooting continued up to a late hour last night.

A correspondent of the Associated Press who was not able to get into Siedlee yesterday, started for there a second time this morning.

Siedlee is a town of 20,000 people, half of whom are Jews.

MASSACRES AND PILLAGE

Scenes of Terror in Poland, With Slaughter and Death Broadcast.

SIEDLEE, Sept. 10.—Field guns occupy points of vantage on the principal streets. There seems no doubt that the terrorists are responsible for provoking the massacre by their fusillades from roofs and windows on Saturday against soldiers and policemen who were patrolling the streets.

The troops surrounded the houses from which this firing came and poured in volleys through the windows and doors. This was followed by a search of the premises, which soon developed into wholesale plundering and subsequently into a massacre and slaughter.

The trouble began in Plenska street and spread rapidly to a large portion of the town. All the Jewish shops have been looted.

Owners who defended the property were killed or wounded. Any person seen leaving a house or looking out of a window was shot without mercy.

THIEF TAKES GARDEN HOSE

Woman Leaves Garden Hose Out and Passerby Is Tempted.

Mrs. Chamberlain, of 277 Eighth street, left her garden hose out for a short time Saturday, and a thief came along and stole it. The thief has been reported to the police. The hose was twenty feet long.

NO INSURANCE FOR LIVESTOCK

Quite recently there has been in this city a number of accidents to horses in consequence of which the animals injured had to be killed, causing a total loss to their owners. The Hutchinson Company lost a horse valued at \$250 and the Union Ice Company two valuable horses, injured by a Melrose train in such a way that they had to be shot.

The recovery of damages from the railroad in the latter case is doubtful.

Considering that there is insurance carried on almost every kind of property, it seems strange that in this State livestock cannot be insured against death by disease or accident. It is true all fire insurance companies and protection against fire, but what does that amount to? The owner of livestock who is willing to pay for it should have the opportunity for protection of his personal property, and livestock above all others is the most valuable property. It is, in many cases, the sole support of the owner.

In France, Germany, England and Australia livestock insurance companies have been in existence for nearly a century. The suggestion in a dispatch from New York that the American squadron under command of Rear-Admiral Brownson possibly would make a demonstration in Turkish waters, is not taken seriously here. It is pointed out that the present relations between the United States and Turkey do not justify any such action.

RUSHING WATER TAKES LIFE

EL PASO, Texas, Sept. 10.—Mail advices to the Herald from Durango, Mexico, say that the breaking of a huge irrigation reservoir at Hacienda Santa Catalina del Alamo, killed one man, washed away four houses and damaged crops to the extent of \$500,000. The Hacienda was the property of Fabio Martinez del Rio.

REBELS REPULSED.

HAVANA, Sept. 10.—A troop train from Havana was attacked early this morning at Artemisa. The rebels were driven off with machine guns.

RESUMED OPERATIONS.

MAHONEY CITY, Pa., Sept. 10.—After being idle since September 1 the thirty-nine colliers of the Philadelphia and Reading Coal and Iron Company in the Schuylkill field, employing 30,000 men and boys, resumed operations today.

BAYONET AND SHOOT JEW

Victims Are Said to Number Hundreds and General Panic Has Seized People.

ST. PETERSBURG, Sept. 10.—The predictions made in the dispatches on August 23 of a Jewish massacre at Siedlee, Russian Poland, unhappily have been justified by the fighting which broke out Saturday night and developed yesterday into a carnival of indiscriminate slaughter and pillage, in which the soldiery and the mob took part.

Unfortunate Jews were shot and bayoneted in the streets of the town. Houses and shops were broken into and looted. Valuables were carried off and offered for sale by soldiers to passengers on passing trains. In addition to the Jews a number of Christians and even some officers met their death in the fighting. The number of victims has not yet been established, but a conservative estimate places it at 140. The Jewish fugitives who thronged the railroad stations at Siedlee are in a state of panic.

Reports received here from Warsaw and other towns in the vicinity of Siedlee place the number of victims at several hundred.

The early reports of the Siedlee massacre, put the responsibility at the door of the terrorists, but fugitives declare the soldiers never would have been allowed to get so completely out of hand without the connivance, if not the actual direction of their officers. The first reports received of the Siedlee massacre last June said the terrorists were to blame there also.

PROMINENT MAN'S FUNERAL

Well-Known Lumber Man of Coast Laid to Rest in Berkeley.

The funeral of the late John Simonds, a well known business man and owner of the Simonds Saw Company of San Francisco, was held this afternoon from the late residence of deceased on Hillgass avenue, Berkeley.

Simonds had resided in California for twenty years, and in Berkeley for fourteen. He was a prominent lumber man of the Pacific coast. Deceased was a veteran of the civil war and a member of George H. Thomas Post of the Grand Army of the Republic. His death was due to paralysis, from which he had been a sufferer for many years.

WHOLE TOWN OF PRISONERS

No One Allowed to Leave Poland City—Effort to Keep Massacres Secret.

SIEDLEE, Sept. 10.—To prevent reports of the outrages being sent out, the telegraph offices are closed and no persons are allowed to leave the town. The refugees continue to crowd the stations. The soldiers are drunk and behaving with extraordinary brutality.

QUARREL ENDS IN STABBING

Victim Receives Four Wounds in Face and Neck From Penknife.

After disputing over money matters, John Gahndett and Charles Meyerstein got into a fracas early yesterday on street and the former was stabbed morning at Thirteenth and Washington streets with a small pocket knife. The injured man was taken to the city hospital, where his wounds were dressed by Steward Borchert. Meyerstein was placed under arrest and charged with assault with a deadly weapon.

Gahndett is a poultry dealer and his assailant a peddler. The victim was stabbed in the face and neck.

BACK FROM LONG AUTOMOBILE TRIP

A. H. Cogswell and Bob Burnett, both of Oakland, have just returned from a tour of the south in Mr. Cogswell's model "F" automobile. The trip was remarkable in that only two gallons of lubricating oil were used, and not so much as puncture of a tire started the party's running. The odometer showed a mileage of 15 1/2 miles for the trip.

HAND OF DEATH IS LAID ON E. M. HALL

THE LATE E. M. HALL SR.

Pioneer Miner, Banker and Broker of This City Passes Away in a Hotel at Auburn:

E. M. Hall Sr., pioneer miner, banker, viticulturist, broker of this city, and, for many years, a retired business man, died in Freeman's Hotel, Auburn, at an early hour this morning.

NOT EXPECTED.
Death was not unexpected, because, for a number of months, the deceased had not been feeling well. Several months ago he was taken ill suddenly, after having attended a gathering of friends. For several days he was in a precarious condition, but at length recovered.

Since that time he has been seeking rest and pleasure and medical treatment at various sanitariums, and it was while engaged in this manner that the end came. At the time of his death Mr. Hall was attended by his son, E. M. Hall Jr., and his daughter, Harriet Hall.

WAS AGED MAN.
The deceased was in his seventy-eighth year. He formerly resided at 110 East Twelfth street. The remains were brought to this city this afternoon. No arrangements have yet been made for the funeral, but it is thought the obsequies will be held at the home of the grandson of the deceased, Hiram T. Hall, 1207 Fifth avenue, Wednesday next.

HEART FAILURE.
Death was due to failure of the heart, the effects of which was aggravated by a complication of maladies attributable to old age. Mr. Hall did not, in appearance, look like a man whom even the infirmity of age affected, because he was robust, ruddy and seemingly as vigorous and as strong as a man of fifty years.

When, however, doctors were called they declared that there was little hope that the patient would be able to ward off the final attack for long.

AN ACTIVE CAREER.
Edward M. Hall was born in Sunbury, Pa., on November 21, 1825. At the early age of sixteen years he graduated from the Sunbury academy, in which he had been one of the brightest pupils. He was the valedictorian of his class, of which he had also been the leader. His scholastic success, while due largely to his native talent and mental powers of absorption, was at the same time, accompanied by close study, a circumstance which tended gradually to the impairment of his health.

COMES WEST.
As a consequence, on the advice of friends who took an interest in him, he was induced to take a trip to what was then known as the "New Eldorado of the West," which reference was then applied to California. He accordingly took passage on the sailing ship Zylon from Baltimore, in 1849, and, after a tedious voyage of 251 days, he entered the Golden State. He was armed with credentials from Hon. Abraham Lincoln, Simon Cameron, John Pollock and John Blandrark, all of whom subsequently acquired both prominence and fame in the affairs of the nation.

LINCOLN'S LETTER.
This letter of Lincoln Mr. Hall preserved with great veneration. All of the signers of the document were at the time, 1848, humble members of the National House of Representatives. The letter is as follows: "Washington, D. C., Dec. 29, 1848. House of Representatives. The bearer, Edward M. Hall, of Northumberland county, Penna., and one of my constituents, proposes to visit California. I take pleasure in recommending to the friendship and kind attention of those among whom he may be cast, my young friend, Mr. Hall is a gentleman of good moral character, an industrious and practical business man. He will carry with him the respect, confidence and good wishes of his friends of the community generally."

JAMES POLLOCK.
"House of Representatives."
"We concur in the above."
JOHN BLANDRARK.
A. LINCOLN.

HEALTH RESTORED.
Mr. Hall reached San Francisco with restored health, and immediately went to Auburn in Placer county, as a miner with pick, pan and shovel, and, in a short time realized as the result of his labors, a sufficiency of the golden treasure to purchase and equip a hotel.

BRANCH BANK.
His success as a business man attracted the attention of and induced at the time the well known bankers

and gold-dust buyers Adams & Co., to place him at the head of their branch house in Auburn in 1852, which business he managed successfully until 1854, when the house suspended, and Mr. Hall was instructed to remit all of the assets in his possession as agent to A. A. Cohen, the receivers, who had been appointed by the insolvent firm.

PAID DEPOSITORS.
Mr. Hall considered that he was under more obligations to the depositors than to the bankers of San Francisco, and advised the former to check out their deposits to the extent of \$50,000. He thereby secured the confidence of the community.

MARRIED.
Mr. Hall was married in 1857, in Placerville, to Miss Jennie Walker, who still survives him, with two grown children, E. M. Hall Jr. and Miss Harriet Hall. Four children were born to the couple, but two have passed away.

GOES EAST.
After experience with the Adams' bank his exchequer to a certain extent, exhausted, and business suspended, Mr. Hall decided to visit his eastern home. He remained there six months and then returned to California and established the Placer county bank at Auburn, with branches in Todd's Valley, Yankee Jim and Gold Run, doing a successful business until 1865, when he sold his share of the business to the other partners.

In the meantime Mr. Hall bought the Gold Run Ditch & Mining Company's mines, which were run successfully under the management of James Gould, by the hydraulic process, until enjoined from working by a decision of the courts.

COMES TO OAKLAND.
Leaving Placer county, Mr. Hall went to San Francisco and established an office for the purchase of bullion, and assisted in establishing the Oakland Bank of Savings, in the Wilcox block at the corner of Ninth and Broadway, his interest in which he sold to the San Francisco Trust Company.

In 1868 Mr. Hall and his family moved to Oakland, and all of them have since made this place their home. Mr. Hall took possession of a home which the late Dr. Samuel Merritt had built at the northeast corner of Thirteenth and Jackson streets.

AS VITICULTURIST.
He subsequently became a member of the banking firm of Hall & Charles, afterwards Hall & Walter, and still later Hall & Mackie, the firms always doing business in San Francisco. In 1878 Mr. Hall retired from active business, and, with his son, embarked in agricultural pursuits. His purchase of the Glendale vineyard, which he ran St. Helena, Napa Valley, which he ran successfully for some time.

Tiring of the monotony of a viticultural life, he again embarked in the wine-pool of stock brokerage, having his office at 314 Montgomery street, San Francisco. He still, however, retained an interest in mining, more especially in the Gould & Curry mine, the Naples, and, even up to the time of his death, held an interest in a hydraulic mine at Dutch Flat, the operation of which was prohibited by law, but which it is considered may become valuable some day, either for the benefit of his children or grandchildren. During all these years Mr. Hall was connected, through his partners, with the San Francisco Stock and Exchange Bourse.

RETIRE.
In 1891 Mr. Hall retired permanently from business, having acquired in his active and exciting life a competency the income from which was adequate to maintain him and his family in ease and even luxury during the remainder of his life. He had property in various places, and his fortune was ample enough to conduce to peace of mind, as well as to afford all the comforts which might be desired by a man of his tastes and means. Mr. Hall, although the son of an Episcopalian clergyman, and brought up in youth in the Episcopal church, in his later years affiliated neither with the church of his father nor yet that of any other religious denomination. He aimed to do good to all men. That was the cornerstone of his religion. He was a member in early years of the California Pioneers, but of no other fraternal society.

PARISH ENJOYS AN OUTING

The members of St. Anthony's parish and their friends celebrated Admission Day with an outing at Idora park, which proved to be a successful and enjoyable affair. A large crowd was in attendance, including people from East Oakland, San Francisco, Alameda and Berkeley.

The park concessions were running all day, and the members of the various committees had made every arrangement for the pleasure of their guests. Among the ladies who were prominent in planning the great outdoor affair were Mrs. Hugh Hogan, chairman; Mrs. John F. Hanlon, secretary; Miss Eunice Gallagher, treasurer; Miss Agnes Pitton, assistant treasurer; Miss Kirk and scores of others.

FATAL END TO AUTO PARTY

(Continued from Page One.)

and who was also its owner. He had left orders with the proprietor of the garage in which the auto was kept that his son was not to be allowed to use it without his knowledge, but the manager of the place allowed the machine to go out on the supposition that it was to be used only in a short run around town.

At the time of the accident Mrs. Milner was riding in the front seat with Isaac, Miss Van Horn was in the rear seat with Clark.

STORY OF ISAACS.
"We were just out for a little spin in my machine and I told the man at the garage that I would be back that night. Mrs. Milner occupied the front seat with me. We had spent some little time in driving about Oakland and when we left there it was with no definite destination in view. We just kept going till the crash came. I suppose I was traveling too fast, but I did not really realize it until I felt the machine tip when we struck the curve. The affair does not cast any reflections on us. I have known Mrs. Milner and Miss Van Horn for some time and esteem them both very highly."

"We were running along at about fifteen or twenty miles an hour, and

when I sighted the turn, in the light from the lamps, I thought that I could get around without shutting off any power. You know that the road parallels the railroad tracks there for quite a distance, and in order to go through the town of Milpitas the road makes a right angle a short distance north of the town and crosses the tracks, after which it veers to the south with another right angle.

"Well, when we reached the turn I threw the wheel around to the right, but I guess that I must have waited too long, for we were too near the outside of the road. The rear wheels commenced to skip down into the ditch on the outside of the curve, and before I knew it the front wheel on the left side had broken down and we were lying out in the road. Clark and myself were thrown several feet, and for a few seconds we were both so stunned that we remained on the ground.

"Then I thought of the girls, and a moment's search found them both tightly imprisoned under the heavy body of the car. I started down the road toward Milpitas to summon help. At the first house I called, but received no answer, and went back to the machine. I crawled under and got the 'jack' from the toolbox, and with Clark's assistance, soon had Miss Van Horn free from the weight which was on her. She was insensible and remained so until the doctor came.

"We did not then realize how serious the accident had been, and after we had discovered that we could not lift the car from across Mrs. Milner's body, we both went for help. Men soon arrived and we readied our other companion, but she had expired before that time."

DAUGHTER OF PROFESSOR.
Miss Van Horn is the daughter of Professor Marion Van Horn, formerly of the San Rafael school department, who created a sensation in Berkeley

two years ago by suing his wife for divorce and naming as co-respondent Adolph Knoph, a graduate student in the University of California, who had made an excellent reputation in the College of Mines. The suit was tried in the Superior Court of Alameda and considerable evidence was produced by the husband. The court awarded the decree to Van Horn.

NOT SEPARATED.
C. E. Milner, the husband of the woman who was killed, was interviewed by the Tribune. He said: "Some of the morning papers have stated that myself and my wife were separated. I wish to de-

clare this and state that there is absolutely no truth in any such assertion. I am a traveling man and was absent from home for a few days. My wife went to San Francisco to visit some of our friends during my absence. I arrived home this morning to find that a serious mistake had been made in the report of several of the morning newspapers in regard to the awful fatality. I desire to have THE TRIBUNE correct it."

The Autotone Player Piano

is what you want to drive your cares away. You can secure all the latest music, both popular and classic. The foregoing cut shows the combination piano ready to be operated with the player. The following cut shows it as closed, ready for use as an ordinary piano, giving no evidence of being a player-piano. We have many other makes of pianos, including the great Knabe Angelus, which is the highest class piano made as a combination. We also have the King-bury Inner-Player, a mighty fine, medium grade instrument. Investigate them before purchasing.

The Mignon Grand Knabe

you see in the following cut is the most popular Grand piano ever produced. The scale is as perfect as a Concert Grand, and much more mellow and sweet in tone. It has a most liquid and flute-like tone, which after hearing you never forget. If you will investigate this piano you will have no other. We have a full line of them in stock at this store.

FUNERAL OF T. N. HANSON

Impressive Services and Beautiful Floral Pieces Mark Passing of Respected Man.

The funeral of Thomas N. Hanson, the highly-respected citizen, and business man of this city, who passed away Friday night, was held from the home of his son, Thomas Hanson, at 314 Tenth street, this morning. The services were conducted by Rev. Father Seanon of St. Mary's Church. There was present a large concourse of friends who had known the deceased during the forty-five years that he was a resident of this State. He was a good citizen and a kind father.

MANY FLORAL PIECES.
There were many large and beautiful floral pieces sent in by the mourners and by friends of Mr. Hanson and of his family. Across the casket was laid a pall of purple sweetpeas and maiden-hair ferns by Thomas N. and Ada N. Hanson, the son and daughter of the deceased. At the head of the casket stood a broken wheel from Mr. and Mrs. C. W. Bacon, a cross of roses from C. E. Brownhan, a pillow of flowers and ferns from F. A. Holton, and a spray of pink carnations and ferns from W. E. Dargis.

Grouped around the bier was a spray of asters and ferns from J. N. Gillett, and one of ferns and carnations from Mr. and Mrs. Edgar Rainer, a cross of sweetpeas and ferns from Mr. and Mrs. Layton, F. W. Perkins and wife sent a spray of roses and ferns and Miss White Perkins a spray of asters and ferns.

There were sprays of carnations and ferns from Mrs. Moffitt, Miss McInish, Mr. and Mrs. R. F. Keeler, Mr. and Mrs. L. Moffitt, Mr. and Mrs. W. B. McHaffie and one from M. J. Kelly, E. Planer and W. Fitzmaurice.

Sprays of asters and ferns were sent by R. S. Phelps, Mrs. Emma Houghton, Mr. and Mrs. Harold Wachter, Mr. and Mrs. Robert Connell, Mr. and Mrs. N. W. Hemming, E. F. Holland, Mr. and Mrs. Charles Harrison, George La Roche, Miss Duncan, Mr. and Mrs. W. B. Smith.

Among the larger pieces grouped at the sides of the bier were a sickle on a pedestal from Edward McGarry, a cross and star from A. Cleak and wife, and a spray from the Mutual Aid Association of Tait & Pennoyer. Selmon is seen so extensive and beautiful an array of flowers.

After the services at the home the remains were taken to the Oakland Crematory at Mountain View, where the last rites were held.

YOUNG GIRL DISAPPEARS

Parents Believe She Has Been Enticed Away From Home by Unknown Man.

Pretty Annie Kennedy, 17 years of age, has left her home at 2021 Second street, West Berkeley, and her disappearance has been reported to the local police. Her relatives can give no cause for Annie's leaving home and they fear that she has been enticed away by some unknown man.

Annie is described as being tall and slender and wearing a black and white skirt a long white coat with a green collar and a white hat.

LIMITED TRAIN GOES INTO DITCH

HAVER, Mont. Sept. 10.—The Oriental Limited, eastbound, on the Great Northern road, went into the ditch near Dossan about 8 o'clock today. No one is injured, but several passengers were severely bruised and cut. Express Manager McConnell of Whitefish, Mont. was badly hurt his right hip and several ribs being broken. Mail Clerk A. E. Roberts of Minot, N. D., was severely injured.

BOY ROBS HIS BENEFACTRESS OF \$36

After being taken into the home of Mrs. W. L. Binkley at 474 Thirtieth street and cared for for several weeks, fourteen-year-old Arthur Winston robbed his benefactress of \$36 in cash and is now in jail awaiting an investigation of his case.

FOOT CRUSHED IN TURNTABLE

Joseph Dacey of 2103 Elm street, an employee of the Oakland Traction Consolidated, was seriously injured this afternoon in the company's yard at Livermore. Dacey was working about the electric trolley in the yard when it started to revolve. He endeavored to get out of the way, but his left foot was caught and badly crushed. The injured man was taken to the Providence Hospital.

GIN LESS COTTON.

WASHINGTON, Sept. 10.—A bulletin issued today by the Census Bureau places the cotton ginned in the United States up to September 1, 1906, at 402,209 bales, counting round bales as half bales. Up to the same time last year 476,635 bales had been ginned.

WORD OF THANKS.

Dr. M. M. Rowley of Berkeley, whose son, Leo Rowley, was killed recently in an automobile accident, wishes to thank his many friends for the prompt sympathy extended to him in his time of trial.

NO LONGER A BACHELOR

Wealthy J. H. Smith Wedded in Scotland to Mrs. Rhineland Stewart.

INVERNESS, Scotland, Sept. 10.—Banns for the marriage of James Henry Smith of New York, heir of George Smith of Chicago, to Mrs. Rhineland Stewart of Baltimore were read in the parish church of Aivie, Invernesshire. Mrs. Stewart arrived in England only a few days ago.

NEW YORK, Sept. 10.—James Henry Smith was a bachelor and is one of the wealthiest men in the country. He inherited some years ago an estate valued at upwards of \$50,000,000 from his uncle, George Smith. After the death of William C. Whitney, Mr. Smith purchased the Whitney residence on Fifth avenue, and has entertained there on a lavish scale. Mrs. Stewart obtained a divorce recently and it was reported then that she intended to marry Mr. Smith. She is much interested in society, as is Mr. Smith, and Mr. Stewart's indifference to social affairs was said to be one of the reasons for the estrangement of the couple. Mrs. Stewart was a Miss Armstrong of Baltimore and is a sister of Mrs. Anthony J. Drexel of Philadelphia.

STATE OF CORN.
WASHINGTON, Sept. 10.—The crop estimating board of Department of Agriculture today reported that the condition of corn on September 1, 1906, was 80.2; spring wheat, 83.4; oats, 81.9; barley, 85.4; rye, 90.5.

Firemen in Convention.

REPORTS HER HUSBAND GONE

Woman in Destitute Circumstances Asks Police to Locate Missing Man.

In destitute circumstances and with an infant child, just recently born, to care for, Mrs. E. M. Wins of Stockton has been compelled to ask the police to locate her missing husband, who has been away from his home since the twelfth of last month. Mrs. Wins believes that her husband came to Oakland and she has had A. W. Moore of 447 South California street, Stockton, notify the local police of her husband's disappearance and ask them to join in the search for the missing man.

Whether Wins has met with foul play or has deserted her wife does not know. He left home on August 12 in the best of spirits and gave no intimation of going away.

Wins is of German descent and about 38 years of age. He has blue eyes, light hair and is of medium size. He dresses stylishly. The missing man was at one time steward of the Olympic Club of San Francisco and is therefore well known in that city.

INSURANCE MEN ARRESTED.
CHATTANOOGA, Tenn. Sept. 10.—Seven local agents of the National Life and Accident Insurance Company of Nashville, Tenn., were arrested today, charged with rebating premiums and discriminating between policyholders. The offense by State law is punishable by a fine of \$100 to \$200 and imprisonment for thirty days, or both.

WHEEL THIEF MOST ACTIVE

Numerous Complaints Made to the Police of Missing Bicycles.

Two of those that left their bicycles in front of the Piedmont Baths yesterday were the victims of a bicycle thief, who also stole a wheel from in front of the place on Saturday. The owners placed their bicycles in the rack in front of the baths, thinking that they would be perfectly secure, but such was not the case as the bicycle thief had the place spotted. He secured three bicycles for his trouble yesterday and Saturday.

Elmer Yokinson of 3813 Opal street and Clyde Alexander of 1376 Broadway were those that have reported to the police that their bicycles were stolen from in front of the baths yesterday.

Joseph Hayman of 1911 Chestnut street also had his wheel stolen yesterday from Twelfth and Castro streets.

HIS ORATORY PAINED POLICE

Bookkeepers Talk Resulted in His Being Struck on Nose by Officer Greene.

Loquacity of a loud nature so disturbed the quietude of Special Officer Greene at the Ball Theater last night that he promptly punched Percy Ellsworth, a bookkeeper residing at 1513 Sixty-second street, with the result that the alleged offensive talker was obliged to visit the receiving hospital and have three stitches put in his nose. Ellsworth was standing on the sidewalk in front of the theater engaged in a conversation with an acquaintance when Greene took exception to his boisterous language. Words followed and the bookkeeper was soon placed hors de combat.

VOTERS SLOW REGISTERING

People so Busy With Personal Matters That They Are Neglecting Politics.

"Registration is proceeding very slowly," said County Clerk John F. Cook this morning. "I estimate the number of voters in this county at present at 50,000. Two years ago we had 44,000. Thus far only half of the approximate voters have registered, notwithstanding that we keep the office open from 7 to 8 o'clock at night for their accommodation and have 250 deputies distributed throughout the county. In order to have a full registration it will necessitate 1000 voters to register every day from now until September 24. It is a little more tardy this year than before on account of the conventions being a month later than in the past and for the additional reason that persons are so busy with personal matters that they are not thinking of politics at all."

DEATH OF NAVY MAN.

John S. Mitchell, connected with the United States navy, passed away yesterday at his home at 958 Twelfth street in this city. Deceased was 61 years of age and a native of Pennsylvania. A widow survives him.

Last Warning Before the Price Goes Up

This Stock will advance to 70c at Midnight, Sept. 15

It Has More Than Doubled in Value Since Last September. It Will Soon Double Again.

I have made millions of dollars for thousands of people by my patents. I expect to make millions more. This stock has increased in value more than 100 per cent since September 1, 1905. The natural increase of business and inquiries for motors has forced the price up several times; it will soon go still higher. This stock should make a life income for you.

Hetty Green, the Richest Woman in the World, Says: "The way to Get Rich is to Invest in Necessities."

The Bidwell cold motor is one of the greatest necessities of the twentieth century. This stock has already taken five jumps up. Now is the time to buy. It will go higher in a few days. The profit is yours. Don't speculate—invest. Here you have a necessity. Look at this list below. Every one of these people made his fortune by supplying some great necessity.

Peter Cooper	Vanderbilt	Frick
McCormick	Gould	Morgan
Carnegie	Whitney	Edison
Rockefeller	Belmont	Stanford
Senator Clark	Mackay	Moore
Heintze	Marshall Field	Leeds
Pillsbury	Leiter	Harriman
Studebaker	Armour	Pullman
Fairbanks	Swift	

Here is the way manufacturing stocks in necessities jump:

	First Sold at	Now Sell at
The Electric Trust.....	150	\$187.00
Quaker Oats, common.....	450	\$145.00
American Radiator, common.....	330	\$100.00
American Smelting.....	330	\$155.00

And this is only a few. Safe and surer than life insurance or trust stocks. All this advance has been made in ten years and less.

The Bidwell Cold Motor

It will supply the greatest necessity now known in the business world. The demand is so large that it will make all of us rich. If you want to get in with me on this you will have to be quick about it. The stock is selling like hot cakes.

My Patent Will Double the Capacity of Any Motor

PROF. BENSON BIDWELL
Inventor of the Trolley Car System
Inventor of the Railway Car Telephone System
Inventor of the Bidwell Cold Motor
Inventor of the Bidwell Cold Motor

By using the Bidwell Cold Motor a train of cars could be run from New York to San Francisco without a stop at the rate of 60 or 80 miles an hour and not even warm up and without a hitch.

Besides running faster, they would be more safe and sure than steam, cost less to operate and would last longer than any other motor now known.

The Bidwell Cold Motor is the greatest invention out since I invented the trolley car.

The Opportunity of a Lifetime

I want to give every man and woman a chance to come in with me on this, for I expect to make millions for the stockholders out of his new patent.

The stock will be sold on the square. There will be no hocus pocus about preference or common stock, nor any other scheme, trick or wrinkle by which anybody can be frozen out.

Every dollar invested will represent one hundred cents of the best stock. Every share will be exactly like every other share. The profits on every share will be the same as the profit on every other share. In short, there will be nothing but a square deal all around.

I have made a lifelong reputation for square dealing. I will personally see to it that every stockholder gets a square deal on this. This stock is fully paid and non-assessable.

In order to make it possible for every man and woman to get in with me on this big deal I have decided to sell the stock until September 15 only at the following prices:

50 shares, \$32.50; 100 shares, \$65.00; 150 shares, \$97.50; 200 shares, \$130.00; 250 shares, \$162.50; 300 shares, \$195.00; 350 shares, \$227.50; 400 shares, \$260.00; 450 shares, \$292.50; 500 shares, \$325.00; Littlefield's Fight in Maine.

Maine will hold her State and Congressional elections tomorrow. The chief interest centers on the Second District, in which Congressman Littlefield is running for re-election. This is due to the fact that Mr. Littlefield has been singled out as the special object of attack by Samuel Gompers, president of the National Federation of Labor, who charges the Congressman with hostility to labor organizations, a charge that Mr. Littlefield, of course, denies.

Mr. Gompers and Speaker Cannon have both delivered speeches in the district, which has been campaigned with intense vigor on both sides; consequently the result is awaited with no little interest, as an indication of the extent to which the opposition of Mr. Gompers is likely to figure in elections throughout the country. It is of particular interest out here because Gompers has also placed Mr. Gillett under his ban.

Mr. Littlefield is opposed by an attorney named McGillicuddy, who is unknown outside of the district, and who has not displayed much ability or given evidence of statesmanlike qualities. On the other hand, Mr. Littlefield is one of the ablest members of the House of Representatives, a keen and eloquent debater, and a conscientious legislator. He is a member of the Ways and Means Committee, which testifies to the high rank he has taken among his colleagues. His defeat would be a distinct loss to the National Congress, and a severe blow to Republican prestige in the coming elections.

However, there seems little doubt of Mr. Littlefield's return to Congress, the only question being the size of his majority. It is expected that this will be reduced somewhat by the opposition Mr. Gompers has provoked in the labor ranks, but unless the falling off should be quite large, the result will have a small significance in other parts of the country. The normal Republican majority of the district is about 5000, so Mr. Littlefield can stand considerable cutting; but if his majority should be small it would be indicative of a Republican slump in many Congressional districts in other States. Speaker Cannon and Senator Beveridge, who have stumped the district, think Mr. Littlefield's majority will not be much below the normal.

The Democratic bosses of California still cling to the notion that the friendship of the Examiner is an insuperable bar to a Democratic nomination. While that belief obtains, it is observable that nominations on the Democratic ticket are not worth much.

The San Francisco Chronicle is waking up to the serious side of rebuilding the burned district with one and two-story wooden shacks of the most primitive description. Some time ago THE TRIBUNE pointed out that in the end this would prove a serious obstacle to the reconstruction of San Francisco along lines of solidity and beauty. Today the aspect of the burned district, five months after the fire, is that of a new mining town in the wilds of Idaho or Nevada. The Chronicle says excessive cost of building is responsible for the condition. No matter where the responsibility lies, the condition is deplorable and promises to grow worse. When will these shacks, once erected along the principal thoroughfares, be torn down and replaced by permanent edifices of grace and beauty? When, indeed? The life of the shack is long and the difficulty of getting rid of it great, as has been proved by past experience. It is quite true that the cost of building now in San Francisco averages fifty per cent addition to the cost before the fire, but business men of the city, dealers in materials, are largely responsible for that. Had materials to be used in rebuilding San Francisco been placed on the free list, things would have been different, but the Chronicle held to a contrary opinion while Congress was in session. It is finding out something rather late in the day.

Baltimore's fire jubilee, which is being celebrated today, should be inspiring and heartening to San Francisco. Baltimore has rebuilt her burnt district more solidly and splendidly than before, improved and enlarged her port facilities, and is today a more prosperous city than she was before the great fire of February, 1904. And Baltimore did not get a dollar of outside help, either.

Our Democratic friends are holding their quadrennial ghost dance in Sacramento, and as usual brandishing their tomahawks and scalping knives against each other. They cannot agree either as to candidates or policies, consequently are making their convention the customary airing of personal antagonisms and factional discords that have furnished periodical amusement to the State for the past dozen years. Oddly enough, several candidates are striving for the empty honor of being beaten by Mr. Gillett. It matters little to Republicans who is selected for the sacrifice, but the broad farce that will be enacted in the selection shows us the lighter side of politics and lends a touch of gaiety to the expiring throes of a once great and puissant party. The Sacramento gathering is simply the comic afterpiece to the really serious drama on the boards at Santa Cruz last week. The usual barnstorming sideshows are also in evidence. However one-sided, the present campaign is not to be without its humors and diversions.

Governor Pardee did not get renominated, but that should not prevent each and every one of us doing something for Oakland. We have voted the school bonds and sewer bonds, and are getting ready to dredge Lake Merritt and make a park of the marsh below Twelfth street. This is all good as far as it goes, but it is only a beginning. Many other necessary improvements are crowding on us, and every citizen of this town should be giving his best thought and warmest interest to schemes of municipal betterment.

It is interesting to note the agricultural conditions of the past ten years. During this time the farmer seems to have been getting his due, thanks to a benign climate and an unceasing demand for field products across the sea. As officially computed by the department of Washington the farm values for these five crops for the last year reached \$3,200,000,000. That was double the computed values for '95 or '96. In other words, for every \$100 which the farmer of 1895 or 1896 had to live on, to buy with, to spend, he had very near to \$200 in 1905. The aggregate values for all farm products for the year were estimated by the department at above \$6,000,000,000. It would probably be difficult to show that ever before in history has farming received so high a return as in the last year. It is quite certain that it has never known, in this country at least, so long a period of profitable prices with a bountiful yield.—Tacoma News.

But why does not Mr. Carnegie now insist that only books printed in the phonetic spelling be permitted in Carnegie libraries?—Kansas City Star

The Republican County Convention

The ticket nominated by the Republican County Convention is a thoroughly good one, composed for the most part of experienced men of affairs holding at present the offices to which they aspire. The others are well and favorably known, and are worthy of public support and confidence.

At the close of every convention there are some disappointments and heart-burnings. These are inseparable from the convention system of selecting party candidates, and are the natural outgrowth of individual rivalries and factional contention. The convention which met last Saturday was no exception in this respect, although it was unusually harmonious. Only a few places on the ticket were contested in or out of the convention, hence attention was concentrated on the positions contended for.

We expect to see all differences in the party ranks disappear when passions have had time to cool and sober judgment regain its sway. In a short time the sentiment of party loyalty will exert itself, and the Republican voters of the county will then present a united and aggressive front in support of the party, nominees, who are all good men worthy of support.

So far as the Superior Court nominees, Sheriff Barnett, County Clerk Cook, Tax Collector Barber, Recorder Grim and Treasurer Kelly are concerned, it is hardly necessary to remind the public that they have proved themselves to be trustworthy and competent to an eminent degree. Their election should be, and according to THE TRIBUNE'S belief is, a foregone conclusion, for it is axiomatic that faithful service merits public confidence.

There is no valid reason, indeed, why the whole ticket should not be elected by a large majority. This is a Republican county, and the nominees are personally and politically unobjectionable. They are, therefore, entitled to the cordial support of all Republican voters.

As for the convention, it fulfilled its duty admirably in naming a good ticket, a strong ticket, a winning ticket. It very properly endorsed President Roosevelt, Governor Pardee, Senators Perkins and Flint, and Congressman Knowland, all men worthy of high honors, who have served the country and the Republican party with conspicuous ability and rectitude.

A HINT TO REAL-ESTATE OWNERS.

EDITOR TRIBUNE: I noticed a few evenings ago that you invited your readers to send in their ideas on topics of current interest.

Besides being a constant reader of your valuable paper, I am also a constant subscriber.

There is one matter I want to write about. Oakland has the chance of her life now to become a great city. What is she doing to attract and keep population? Why are not her public-spirited citizens securing tracts of land and putting up cottages for men of modern means, mechanics and others, who will find it impossible to get houses in San Francisco this coming winter? In place of these inducements, what do we find? Houses are sold over tenants' heads, and they are compelled to move at short notice.

On Sunday I took a buggy and drove all over Oakland and Berkeley, and not one house or flat did I see for rent. Not a single house did we see that was being built for renting purposes. Everything was for sale at figures out of the reach of men of moderate means. A few nights since I attended a lodge meeting in San Francisco, and at least fifteen persons there stated that they would have moved to Oakland long ago if they could have found houses. They would have been permanent and desirable residents. What is the result of this? Many of us will be compelled to return to San Francisco, where it is as easy to get houses as it is here in Oakland, or we will have to go to San Mateo, Mill Valley or Burlingame, where prices for land are not so exorbitant, and where houses are built and rented or sold at reasonable figures.

Why keep desirable residents away, and why compel those who would like to spend the rest of their lives here, to move for lack of accommodations.

Live men of Oakland, get a move on, and help to build up your city.

Relieving the Monotony.

"See here, sir!" cried the irate patron, "I want to complain about the waiter—"

"I'm glad to hear it," interrupted the proprietor of the restaurant.

"Glad?"

"Yes, it's a relief to hear a complaint that isn't about the food." —Philadelphia Ledger.

Dad (severely)—And look here, Ethel, you mustn't encourage that young man to stay so late every night. It's disgraceful. What does your mother say about it?"

Ethel—She says men haven't altered a bit, dad.—Ally Sloper.

Gratifying Progress.

"Your son is studying art, I believe. Has he made much progress?"

"Oh, yes. He's able to talk the language quite fluently." —Judge.

MALARIA AN INSIDIOUS FOE TO HEALTH

Malaria is an atmospheric poison which we unconsciously breathe into our lungs through the impure air arising from low, marshy places, stagnant ponds, damp cellars, sewer pipes, improperly ventilated houses, decaying vegetable matter, etc. Day after day these germs and poisons are taken into the lungs, and as the blood passes through them it becomes infected with the poison and in its circulation distributes the microbes of disease to all parts of the body. Malaria is a very insidious disease; it gives no warning of its coming until the circulation is filled with the poison and this foe to health has the system at its mercy. The blood becomes polluted, thin and weak and its slow, irregular circulation fails to properly nourish and strengthen the body. Then the entire system is attacked, and if the germs and poisons of Malaria are allowed to remain the strongest constitution will break down. No one can feel well when the system is in a malarial condition; the vitality is weak, the appetite poor, digestion deranged, the complexion grows sallow and the entire body feels the effects of the poison. Malaria must be removed from the system through the circulation and the only medicine that can accomplish this is S. S. S. It not only cleanses the blood of all unhealthy, morbid matter, but destroys the germs, cures Malaria and restores this vital fluid to a strong, healthy condition. S. S. S. is made of roots, herbs and barks combining purifying and tonic properties which keep the blood free of all poisons and the system in perfect condition. While destroying the germs of Malaria and building up the weak, polluted blood S. S. S. gives tone and vigor to the entire system. Book on the blood and any medical advice without charge.

HOW MANY OF US

Fail to Select Food Nature Demands to Ward Off Ailments.

A Ky. lady, speaking about food, says: "I was accustomed to eating all kinds of ordinary food until, for some reason, indigestion and nervous prostration set in."

"After I had run down seriously, my attention was called to the necessity of some change in my diet, and I discontinued my ordinary breakfast and began using Grape-Nuts with a good quantity of rich cream."

"In a few days my condition changed in a remarkable way, and I began to have a strength that I never before possessed. Before a vigor of mind that amazed me. It was entirely new to my experience."

"My former attacks of indigestion had been accompanied by heart trouble, and many times my condition was distressing with blind spells of dizziness, rush of blood to the head and neuralgic pains in the chest."

"Since using Grape-Nuts alone for breakfast I have been free from these troubles, except at times when I have indulged in rich, greasy foods in quantity, then I would be warned by a pain under the left shoulder blade, and unless I heeded the warning, the trouble would come back, but when I finally got to know where these troubles originated I returned to my Grape-Nuts and cream and the pain and disturbance left very quickly."

"I am now in prime health as a result of my use of Grape-Nuts." Name given by Postum Co., Battle Creek, Mich.

BRIDEGROOM DISAPPEARS

Is Missing on Wedding Day
With Funds Belonging to
Bride's Family.

Miss Lottie Phillips, an attractive young lady of this city, is the star of a drama in real life, and has had a rude awakening from a happy dream of love at the hands of Merrill A. Smead, who deserted her and is supposed to have decamped with funds which should rightfully have been turned over to the members of the Phillips family.

Miss Phillips has been engaged to Smead since December last. He called to appear for the wedding, which was set for last Tuesday at the Phillips home, 1261 Chestnut street, and as a consequence of the young man's failure to keep the important engagement the father of the prospective bride is hunting for the missing man.

The love story of Merrill Smead and Lottie Phillips began in old Tuolumne county at the picturesque little town of Quartz, about one year ago. The young lady was one of the belles of Tuolumne county and admired and respected by every one in that mining community. Her father and mother were raised on the mother lode and George Phillips is well known to every old mining man.

On Miss Phillips' birthday, December 22, the announcement was made that the young couple had been engaged. About ten days ago Mrs. Phillips and her daughter, Lottie, came to Oakland on a visit, to prepare the wedding trousseau. Smead was to remain behind at Quartz and sell some household effects, a horse and buggy, and then come on to Oakland. The wedding day was set for Tuesday, and all the preparations were made for the happy event.

Word was sent to Smead, and it was expected that he would arrive in Oakland last Sunday, but he did not come. It was fully expected, however, that he would be on hand for the ceremony, but Tuesday came and the guests and prospective bride waited in vain for the recalcitrant bridegroom.

Finally they gave up in despair. It was then discovered that he had left Quartz last Saturday, after realizing the money from the sale of the property belonging to the Phillips family, which had been left in his hands.

Inquiry was made for the young man, and he was traced to Sacramento, where the trail was lost. It is alleged that he has decamped, but there are some fears that he may have been foolishly dealt with.

PICKETT-McKEEVER.
The marriage of Miss Maude Pickett and Robert McKeever took place yesterday afternoon at 4 o'clock at the home of the bride's parents, Mr. and Mrs. R. A. Pickett, of Sixty-first street.

The bride was attended by her sister, while a brother of the groom acted as best man.

The groom is engaged in business across the bay and after a honeymoon trip, the couple will make their home in San Francisco.

O. H. S. CHANCES BRIGHT FOR CHAMPIONSHIP

FISHER GETS A GAME AT LAST

Fresno broke the hoodoo yesterday morning and won by a score of 8 to 0. In the afternoon Oakland made it thirteen out of sixteen by a score of 6 to 2. There wasn't much to the before-lunch affair. Cates, who is usually effective against the Ralston Eaters, was easy picking, and Mique's crew hit his curves all over the lot. O'Banion, who was driven out of the box in one inning the other day, held Oakland safe all the time, the Commuters getting a scratch hit in the first inning and a good hard single in the ninth.

The fifth was the round in which the hopes of Fisher were blasted. Devereaux hit safely and took second on Haley's single to right. Both moved up a peg on Fresno's next sacrifice. Graham's long double to the left-field fence scored both men.

In the sixth Casey muffed Heltmuller's easy fly and he went to the middle sack, when Hackett stopped one with his slats. McGregor did a double somersault with Devereaux's punt and Hene reached home. Haley and Franks went out, and while Eagan was juggling Graham's swat, Hackett scored. In the eighth the Oaks made two more on a combination of hits and errors. Today Fresno will bring its long visit to an end, and, if everything goes well, will leave for the north in the evening for a two weeks' trip. The scores follow:

LOUIS BURNS AFTER HARRY BAKER

Sporting Editor TRIBUNE: Louis Burns, known as "Kid" Burns, is about to re-enter the ring, and will go after the top-notchers in the bantam-weight division. Burns is in grand condition and has been doing light training at Lakeside, and is ready to enter the ring on a minute's notice. Harry Baker, the so-called champion, however, will bet \$500 as a side bet that his man can defeat Baker.

Now if Baker's manager thinks his man can lick Burns, let him put his coin up, or shut up. Address T. Lannon, Saukville, care Envy's room.

Prompt relief in sick headache, dizziness, nausea, constipation, pain in the side, guaranteed to those using Carter's Little Liver Pills. One a dose. Small dose. Small dose. Small dose.

THIS IS THE WAY BATTILING NELSON WOULD APPEAR IF HE SHOULD TAKE A TURN ON THE STAGE AND TELL HOW IT HAPPENED.

BREEZY GOSSIP OF THE TURF AND THE PADDOCK

BY LEE DEMIER.

The following horsemen arrived at Emeryville with their horses yesterday and were assigned stalls for them by Sam McGibbon: Engstrom, 6; Johnny Miller, 3; George Wentworth, 2; G. H. Sommers, 5; Jack Green, 1; Walker Merip, 3; Steve Judge, 3; G. Demming, 1; J. F. Clifford, 6; T. Proctor, 3; A. J. Jackson, 7; C. W. Gould (Antrim Stable), 5; V. H. Terry, 3; W. P. McGranee, 3; E. G. Switzer, 2; Harry Meek, 5; Garnet Ferguson, 3; "Trisco" Hoag, 3; Pete Winsor, 4.

Secretary Nathanson, of the Crescent City Jockey Club, New Orleans, has announced that the Crescent City Derby, to be run March 23, will have a guaranteed value of \$10,000.

Garnet Ferguson's stable, headed by the mighty Bearcatcher, arrived at Emeryville yesterday. Garnet said he was glad to get back to dear old California, "quakes" or no "quakes."

Pluger McManus, once a street car conductor in San Francisco, but now a prominent bookmaker, has arrived in New York from Europe, accompanied by his wife.

Tom Ryan has arrived at Sheephead Bay from Port Erie with Down Patrick and a two-year-old.

Secretary Percy Treat has moved his office from Ingleside to Emeryville. He said he expects to have the state books out this week with the customary number of feature events. He anticipates a greater entry than ever before for the big classics.

The Fitzhugh, which was decided at Sheephead Bay Saturday, resulted in a big upset for the talent. Fountainblue was the choice at odds of 2 to 1, but finished in the ruck. Electioneer, the Futurity winner, second choice at 5 to 2, finished fifth. Paul Ralney's \$45,000 colt Demond captured the rich classic in clever style at the juicy odds of 12 to 1.

Johnny Crave, of Brynordale fame, has opened a cafe in Oakland, the opening of which occurred last Saturday. His many friends were on hand and gave the young horseman a rousing reception.

A carload of horses belonging to Pearl Wilkinson and E. W. Elsie, which was sidetracked at Emeryville, was run into yesterday by an outgoing train. Among them was Andrew H. Cook, and it is reported that the old campaigner was seriously, if not fatally, injured.

Owner and trainer Olle Johnson will arrive from Seattle today with his brownhopper, Entre Nous, and several others.

Horsemen who have arrived from Seattle are complaining of the exorbitant rates charged by the Southern Pacific company for transportation for their horses. They not only charged for the horses, but also made them dig down in their jeans for dogs, chickens and other pets in general that go to make up a racing stable.

Doc Huston, the veterinarian, arrived from Seattle yesterday. "Doc" said he had a very successful season at the Meadows.

Alderman Batt, the four-year-old gelding, by Mount O'R—Prettiwit, is not dead, as reported by Goodwin's Turf Guide. C. C. McCaffery, who bought the gelding from C. E. Durnell at Ascot park last winter and raced him once afterward in Oakland, sold the gelding to the San Francisco racing season to an abrupt closing in April. He has been running out this summer and I have had good reports from him all along.

A sensation was created the other day at Sheephead Bay by the announcement that Joan A. Drake would retire from racing with the close of the present meeting. Mr. Drake confirmed the report and said that he would sell out as rapidly as possible, adding that the unfair odds laid by the book-

Football Team Has Abundance of Good Material and Two Excellent Coaches for the Season's Work.

The Oakland High school football team has started practice with a list of nearly forty candidates. In addition to the new men, six members of last year's team are back at school: Captain Malcolm, last year's left end, and who is one of the best ends in the league; Harris, right guard, who did the punting last year; Robert Ralph, center; Ralph High, left guard; Eugene Walton, quarter, and Louis Walton, right half.

The coaches expect to turn out a winning team this year, as will be seen by what Bramhall says.

BRAMHALL TALKS.
"We have good reason to think that Oakland High can win the league championship this year because the changes in the rules favor us. The new rules call for a gain of ten yards in three downs, which means that there will be a great deal of end-running and punting. That, of course, requires a fast back field, which is just what we will have. In addition to Harris, who did the kicking last year, in all probability all of the backs will be able to punt."

"Our line this year will be composed of men who are fast on their feet, instead of being big and beefy. There are nearly forty men out for practice now and there will be fifty by next week. From that bunch of men we are confident that a winning team can be made."

THOSE SIGNED UP.
The names of the men who have signed up for practice already are the following:

Captain Malcolm, R. Ralph, M. Harris, E. Walton, L. Walton, Ralph High, L. Stroud, Sanders, Taylor, Hill, Dow, King, Bangs, Greely, Poore, Johnson, Overlin, Reager, McElrath, Ench, Irwin, Hook, Free, Hartwell, A. Smith, McKinnon, B. High, T. Henshaw, W. Henshaw, L. Marshall, E. Coffey, W. Hott, Ritchie, Cornell, Heath, Calderwood, Burchatter, Freiberger.

RALPH FOR MANAGER.
The manager appointed for this year is Robert M. Ralph, who played center on last year's team. Mr. Ralph has already shown vigorous spirit by arranging several games with the prep schools about the city. The problem of getting money to pay expenses will probably be easier for the manager than formerly, because the high schools will have the only teams playing American intercollegiate football, as the local delegates did not tell in with "resident Wheeler's ideas or the subject of football."

SEATTLE IS ANXIOUS TO QUIT THE BIG COAST TOURNEY

SEATTLE, Wash., Sept. 10.—Russ Hall wants to finish the baseball season, no matter what the losses of the Seattle team may be. James P. Agnew wants to quit at the end of the home season, abandoning the California trip. That is the situation in the Seattle club. Hall's position is founded upon baseball law. He wants to protect his territory and to keep his players together for another season, no matter where his club may line up. Were he to drop out earlier, he would lose all right to his players, and there are several men to whom Hall wants a string attached.

The club has realized about all it can from the sale of players. The money has been paid over for Blankenship by Washington and for Kane by Cincinnati. Kane and Hall were sold conditionally. If they make good, there is an extra bonus due the Seattle management, so whatever the club does, it must pay. It is estimated the California trip will cost \$4500. The rainy weather at home has set in, and there may be losses here to make up. This is the consideration Agnew is weighing, but Hall wants to devote the money he gets from the sale of players to making up the deficiency. The Seattle magnates are disgusted with the way the league affairs have been conducted.

THE FINANCES.
After the fire in San Francisco \$5000 is said to have been raised in the Coast League. Not a cent of this money has been sent to the Seattle club. More than a month ago the Seattle men wrote to the treasurer of the league, Cal Ewing, asking for information on this subject. The money was ignored. The Seattle men realize that by refusing to play out the schedule they will forfeit the \$1500 they have in the guarantee fund. That fact does not worry them, for they are firmly convinced that there is no money in the fund.

There should be, they say, \$3600 in the fund, \$1500 for each of the six teams. This, with the \$5000 received from the Eastern league, makes \$14,600. The Seattle men firmly believe that all this money has been dissipated, mostly in financing the Los Angeles team, and that there is not any money in the treasury. At any rate, they have no requests for a statement from the treasurer of the league, and they have no intention of paying him.

It would cost the Seattle men \$4000 to send the team to California for the first week of the season. The two weeks of that time is scheduled for Fresno. For the last two months no umpire has been sent to Seattle. The league is supposed to pay its umpires, yet for two months the Seattle team has had to hire men to do the work and pay them.

EWING TALKS.
Cal Ewing of the Oakland team was seen last night with regard to the rumor that the Seattle team would drop out of the league. Mr. Ewing said: "I know nothing of the story. If it is true it will not cause a disruption of the league, for we will take the same course that we took in Los Angeles. We will take over the players and carry the team along when the time comes." He said, "we will vote to take the club and run it just as we did in Los Angeles. No matter what comes, I will stay with the league and I guess we will get along. Sacramento is ready to take Seattle's place and for one would like to see the team in the league."

SEATTLE IS ANXIOUS TO QUIT THE BIG COAST TOURNEY

SAN FRANCISCO, Sept. 10.—The championship tennis tournament which has been in progress for the past ten days will be concluded today on the courts of the Hotel Raphael at San Rafael. The finals of the women's singles will be called at 1:30 p. m. and the challenge match of the men's singles at 2:30 p. m.

George Jones, the present singles champion of the coast, will be called upon to defend his title against Melville Long. In the absence of Miss May Sutton, the present champion among the women, the winner of the final match between Miss Gabrielle Dobbins and Miss Hazel Hotchkiss will be awarded the championship through default.

PURSES FOR A NINETY-DAY MEET.
LOS ANGELES, Sept. 10.—Manager James Brooks of the Los Angeles Jockey Club has issued the program for the winter racing season, which will open at Ascot Park Thanksgiving day and continue ninety days.

Brooks says: "Letters and information already received show that a greater number than ever of Eastern people are coming to spend the winter here. Stakes and purses offered have been increased in value. The Jonathan handicap has been raised from \$1250 to \$1500.

"The Riverside has been changed from a handicap to a selling stake and the value raised from \$1250 to \$1500. The California Club, the Hollywood club, the Coronado Beach selling stakes, the Santa Anita and Pasadena handicaps have been also increased from \$1250 to \$1500, while the Ascot handicap has been raised to \$3000. Frequent free handicaps of \$1000 and \$500 will be given during the week and no purse less than \$400 will be offered."

HIGH SCHOOL RACE IS ON TONIGHT.
The much-talked-of race for the championship of the Oakland High school, which is to begin at the Lakeside skating rink tonight, should provide no end of excitement for the lovers of roller contests.

Many of the lads who contemplated participation in the events are members of roller polo or "hockey" teams and consequently are as full of dash and spirit as that lively game can make them.

The contests are to be held every Monday night for several weeks, in preliminary heats, after which the various districts will meet in a grand final. The winner is to receive a gold medal.

Tomorrow night there will be another heat in the two-step contest, the final of which is to be held Tuesday evening, September 12.

UMPIRE KLOPF MOBBED BY FANS

SEATTLE, Sept. 10.—Umpire Gus Klopff was driven from Recreation park yesterday by a mob at the end of the first inning of the second game. The mob piled on to the grounds from both bleachers, surrounding the umpire and shouldered him through the clubhouse door. Klopff tried to hold his ground long enough to keep track of the time and declare the game forfeited, but he was shoved through the gate so soon. Parke Wilson gave notice of a formal protest, then drew Nick Williams off first base and sent him in to umpire the rest of the game.

Klopff got into trouble during the first game. Seattle was two to the good up to the seventh inning, when, with two out, Klopff called for a strike. Then Housholder dropped a long fly from Walthour and Irwin came home. Streib relayed the throw back, but it looked to the crowd as though Blankenship had easily caught it. Klopff called for a strike, and the crowd was in an ugly mood. A moment later, when Walthour scored the grandstand and bleachers were both in an uproar. Klopff got through the rest of the game without incident.

HISSED INDICATOR MAN.
At the beginning of the second game the crowd hissed Klopff so strongly that he could not make the formal announcement of the batteries. With Hildebrand up in the first inning, he struck at a wild one that hit his person and Klopff called for a strike, which the rules demanded. As Seattle retired, Housholder walked into the diamond and shouldered Klopff roughly. He was ordered out of the diamond, but refused to go. Russ Hall ordered Housholder into the left field, but the crowd took things into its own hands.

People climbed over the left field bleachers into the grounds, shouting at the umpire, and another mob started from the right field bleachers. Klopff was yet in the center of the diamond, but he broke and ran to the plate, pulling his watch. The crowd followed him up, and those in the rear showed an old man at the umpire. The crowd went down together. Then Klopff was led from the grounds. There were no policemen present, and neither team made any effort to protect the umpire.

After some parley, in which San Francisco demanded the game, Williams went in to umpire. The two teams broke even on the day, Seattle batting out a victory in the second. The story of San Francisco's win in the first has been told. McKinnon's sensational one-handed catch was the leading feature.

BEAVERS GO BEGIN RUGBY TO IMPROVE MARCHING WORK AT STANFORD SEATING AT FIGHTS

PORTLAND, Or., Sept. 10.—By heavy batting in the first game and clever pitching in the second, Portland took both games from Los Angeles yesterday, ending the last series of the season with that team on the local field.

In the first contest the score was 3 to 0 in favor of the visitors up to the sixth inning. In that game the Beavers got five hits and seven runs off Randolph Cravath and Dutton followed him for an inning each, but did not prevent two more runs from coming in.

The second game was fine ball with a final score of 10 to 1. Henderson and Bergman were the opposing pitchers, with honors in favor of the local man, who allowed only two hits, and those in the last inning. Scores:

CHAMPION GOTCH ON TRICKS OF WRESTLING

Frank Gotch, champion catch-as-catch-can wrestler of America, tells some secrets in discussing the fine points of the game.

"The original principle that governed wrestling was simple variations of the mechanical proposition of lever and fulcrum," says Gotch. "A hold secures a by a contestant on an opponent meant simply that he had obtained a means of applying a simple machine to the principle of leverage. The hold is a principle which enabled him to turn over the body of his adversary and bring him into such anatomical relations to the mat as were required by the rules. These provided for the touching of the shoulders of an opponent to the canvas. In the development of the game, however, it has been found that there is a more powerful influence toward making a man roll over on his back or simply pull out and over the shoulder of the opponent than the mechanical principle. It is pain."

GRIPS NECESSARY.

"If certain grips can be secured, all the science of holds looking toward leverage as a means of success is secondary, and the contestant need have no knowledge of the principles of leverage, or unbalancedness, due to exerting pain, is made to do in a few seconds what hours might not suffice to accomplish under more legitimate methods."

"The terrible and dangerous holds possible in wrestling are not employed in ordinary matches. In fact, one of these, the strangle-hold, is almost always barred. Another, the hammerlock, is frequently ruled out on grounds of agreement. Even in this case, however, the amount of punishment administered during the wrestling contest is simply inconceivable."

"Amusement is immensely more, however, not with the idea of fighting sublimely at once. It is rather the object of the wrestler to tie out the muscles of his opponent. If he happens to get on top of him on the mat he tries to stay there. The reason is plain. If he stays on top of him, the opponent is bearing the weight of it all the time he is down. This is not mere child's play. How much more wearing is it when the man on top is using every opportunity to wrench your muscles, shut off your wind, strain your neck by making strikes at getting half-Nelsons, and other tricks of the game?"

TELLING WORK.

"This is the punishment that will tell. A man caught out of condition is runned in five minutes by the constant hammering of his opponent's barked hands against his stomach."

"In matches for side bets, where wrestlers, usually men of excellent physical courage, as well as endurance—necessarily so, in order to defend by an amount of money placed on them, while the first few minutes of the fray may be of the more legitimate order, when one contestant sees the tide turning against him, he is sure to bring his reserve force into play."

And then it becomes a matter for hold. In these matches the strangle-hold is usually barred. Where it is not, the effect is deadly. When placed on an opponent, it is as secure as a Yale lock. Few men exist who can break such a hold secured by a man of equal strength. It is a wise wrestler, then, who sees his dilemma and quits, saving himself punishment."

GLEASON SAYS PURSE TOO SMALL

CHICAGO, Sept. 10.—Manager Gleason said last night that under no condition would he allow a fight to meet O'Brien in San Francisco for a \$15,000 purse. "I tried to get that he would have to put up considerable more than \$15,000 before he would agree to fight," said Gleason's manager.

"If the Nelson-Gans bout was worth \$50,000, the proposed fight between the boxing heavyweights ought to be worth more than half as much. There are any number of places right in California where we can get a bigger purse than he one offered by Gleason."

An Ounce of Prevention is worth a pound of cure. There are many poor sufferers, consumptives who are hopeless of getting well—who, if they take care of themselves would now be well. A cough is the foundation of consumption. Ballard's Horehound Syrup will cure that cough. Mrs. S. M. Great Hills, Montana, writes: "I have used Ballard's Horehound Syrup in my family for years—my children never suffer with coughs." Sold by Watson's Drug Store.

STANFORD UNIVERSITY, Sept. 10.—All the athletes who signed up for Rugby football met Coach J. F. Flanagan yesterday morning in one of the large classrooms and listened to his first instruction of the season on the new game. He explained the rules and gave the men a preliminary idea of the first principles of the game as far as it is possible to do so without actually practicing in the field.

This afternoon at 4:45 o'clock the first practice of the year will be held on the new football field.

ALAMEDA HIGH IS TO PLAY ABROAD

ALAMEDA, Sept. 8.—The local high school football team will play a game with the San Rafael High school eleven today at the Marin city. This will be the second game participated in by the local school. Byron Paul is the captain of the eleven.

CLUB RUN.

A second club run will be given next Sunday in response to the demands of the members who so thoroughly enjoyed the previous run.

President Walter B. Fawcett is to lead the trampers, in company with other officials of the club. Plenty to eat and drink will be taken along and a good time is assured.

SKATING NIGHT.

In accordance with the usual custom of the club, next Wednesday evening will be devoted to skating for members and their fair friends and relatives. Music will be provided and no doubt there will be a large attendance.

STRANGLE HOLD.

"With the strangle hold barred, the hammerlock is, perhaps, the most terrible of punning holds. The hold once placed, the unfortunate in the hold finds a broken arm to a certain extent he rolls over and submits. A strong forearm may frequently break this hold, but if well placed, it means almost certain surrender. Several other holds which are perfectly legitimate, but which, when secured, might cause a man to surrender through sheer pain or fear, the chances of broken bones, are the arm lock and toe hold, a crutch and a half-Nelson, or a half-Nelson and hammerlock worked together."

"Another hold that is dangerous and painful, but is often used, and has won hundreds of titles, looks simple. It is called a toe hold. When on the offensive and the opponent is on his hands and knees, with your left hand catch his right arm. Bend his arm up under his head and with your left twist his foot so that either his ankle must be twisted out of joint or he must surrender."

"All of these holds are terrible, and are tolerated in catch-as-catch-can wrestling. Another thing to be considered is that wrestling is a fight to the finish for every fall. In a boxing bout you know how long you are to box. You can judge your pace accordingly. In wrestling it is three or four minutes or less."

MARRIAGE LICENSE gratis to you.

PASTORS SPEAK OF ADMISSION OF CALIFORNIA TO THE UNION

ADMISSION DAY SUPPLIED THE THEME YESTERDAY FOR DISCOURSES IN THE SEVERAL
CHURCHES IN THIS CITY, ALAMEDA, FRUITVALE AND OTHER POINTS. INTERESTING ADDRESSES
WERE HEARD BY LARGE CONGREGATIONS, AND IN SOME INSTANCES THE SERMONS WERE IL-
LUSTATED.

HIS ADDRESS ILLUSTRATED

Special Services for Admission
Day, in Which Children
Took Part.

Admission day was observed Sunday
evening at the First Congregational
church, Alameda, by special services,
in which the children took part. Rev.
L. Peter Hiltchcock, the pastor, deliv-
ered an illustrated address on "The
Native Californian, or a Glimpse in
the Door of the Spanish Mission."
The First Baptist church of Oak-
land yesterday celebrated the fifth an-
niversary of Rev. H. J. Vosburgh's
pastorate. In the course of his ser-
mon yesterday morning the pastor
said:

"The past five years have certainly
been eventful in the life of this con-
gregation. On the evening of August
10, 1902, the former edifice at the cor-
ner of Fourteenth and Bush streets
was destroyed by fire. In planning for
the future the church sought a more
eligible location at the corner of Ele-
venth and Jones street. The wisdom
of this movement is now
abundantly evident.
"In undertaking to build a house of
worship of the proportions of our present
building the church entered upon a
project that was without a parallel
in the history of the Baptist denomina-
tion on the coast. But a new exalta-
tion has now come upon us.
"On April 18 our main auditorium
was badly wrecked by the earthquake
and the fire which devastated San
Francisco was disastrous in its effects
upon the financial interests of the large
number of our members whose busi-
ness was in San Francisco.
"Notwithstanding these difficulties,
the church has steadily grown. While
weakened financially at the present
time, the willingness of the people to
give is greater than ever. Our offer-
ings for current expenses and for mis-
sions have shown no diminution since
the earthquake, although our larger
resources are being expended in rebuild-
ing have undoubtedly diminished.
"The spiritual life of the church is
healthy, and we are confronting the
future with hope. We are grateful
for some assistance received from the
east. With that and our own contri-
butions we will speedily begin the
work of reconstruction. We must also
at once plan for the completion of the
main auditorium. With the present
progress of the city we should lose no
opportunity for an immediate and
large advance movement."

BLOCKS OF STOCK CHANGED HANDS

NEW YORK, Sept. 10--Opening deal-
ings in stocks today were active and
large blocks of some of the speculative
stocks changed hands. Prices were
higher throughout, but the changes
were generally small. Great Northern
preferred showed a gain of 1/2. Atchafalpa
and Southern Pacific, Texas and Pacific
and International Metropolitan large
fractional blocks of 400 shares of the
latter sold at the opening at an advance of 3/4.
The announcement of large pro-
gress of the city we should lose no
opportunity for an immediate and
large advance movement."

ATTEMPT TO KIDNAP A SPANISH HEIRESS

NEW ORLEANS, Sept. 10--In order
to hold her for ransom, Miss Carmen
Gonzales, a beautiful Spanish heiress,
was chloroformed in her room in one
of the most fashionable boarding
houses in the city and her captors
were only prevented from placing her
in a hack by a clever ruse of Miss
Gonzales.
She had a room on the first floor.
Two men, both of whom spoke French,
forced open the window. She was
awakened by the noise and got out of
bed. Before she could call for help she
was seized and a handkerchief soaked
with chloroform pressed to her face.
She feigned unconsciousness and held
her breath until the handkerchief was
removed. She was lifted through the
window and as soon as she was in the
yard she began to scream for help.
The kidnapers dropped their burden
and drove away in a hack.
Miss Gonzales believed the men in-
tended to hold her until her relatives
paid a large ransom.

PROMINENT MINING MAN SENT TO JAIL

SEATTLE, Sept. 10--A. B. Dea,
a pioneer of the Copper River valley and
formerly one of the wealthiest operators
in that section of Alaska, is in jail at
Valdez. He was indicted on two
counts of forgery. He and one Charles
Friend are alleged to have drawn up a
deed for transferring beach claim No.
4, below Cleary creek, in the Fair-
banks mining district, from Gustave
Dickinson to Dea. Friend's part in the
transaction was to represent Dickin-
son and he signed Dickinson's name to
the papers, despite the fact that Dick-
inson was dead. The deed was then ac-
knowledged by Judge Morford of Sea-
ward, it is claimed, through the ef-
forts of Dea and was later recorded at
Fairbanks.
The Dea indictment is said to have
been based on a confession made by
Friend.

RULE OF THE SPANIARDS

Rev. O. E. Hart Dwelt on Their
Early Coming and Arrival
of Americans.

Rev. O. E. Hart, at the Centennial
Presbyterian church, dwelt on the
early Spanish voyagers, the rule of
the Spaniards, the coming of the
American and civil government. He
said that among the special lessons of
Admission Day were the undeveloped
possibilities in every life. California
was discovered fifty years after the
great Columbus reached the West In-
dian, noted the clergyman, but for 300
years his vast possibilities lay hid.
Continuing, Rev. O. E. Hart said:
"This State became one of the Union
of States only by submission to the
constitution of the United States, not
will you ever become a citizen of the
people of save men of except by
willing adoption of God's fundamental
law.
"Once admitted as a State, every
citizen enters into the possession of
rights and is under duty to do whatso-
ever will maintain, exist and perpetu-
ate the welfare of the State. And
within this grand sisterhood of States
California has perfect independence
within the limits of the constitution.
Love, loyalty and labor are the
means whereby we as citizens may
express our appreciation of our
common citizenship."

CELEBRATED THEIR COMING

Two of Oakland's Best-Known
Ministers Tell of Their
Advent Here.

Two of Oakland's best known min-
isters, Rev. E. R. Dille of the First Meth-
odist Church and Rev. H. J. Vosburgh of
the First Baptist church, preached ser-
mons in their respective churches yester-
day in celebration of their advent among
church folk in this city.
Dr. Dille spoke of the events which
had happened since he came to this city
fourteen years ago, while Rev. Vosburgh
spoke of the happenings to him and his
church since the beginning of his pastore-
ate file years ago. Both sermons were
very interesting and were listened to by
crowded houses.

GREAT DANE GOES MAD; TREES MASTER

NEW YORK, Sept. 10--A great Dane
dog owned by J. J. McMullin of Hun-
tington, L. I., went mad after being
bitten by a small terrier and trod his
master, who clambered in his auto-
mobile when the animal clambered in.
Besides McMullin there was a bicy-
clist and a score of workmen roosting
on branches, while the dog pranced
about, snapping at everything in sight.
McMullin was driving his automob-
ile through the fashionable summer
section of Huntington, when a small
Siye terrier bit the Dane, who had
been trotting behind the car.
The big dog sprang into the auto-
mobile and attacked McMullin. The
master was astonished almost beyond
action.

FOUNDATION IMPORTANT

Such Is Opinion of Rev. T. A.
Boyer In Regard to Relig-
ious Affairs.

At the Fruitvale Congregational
church Rev. Burton M. Palmer, the
pastor, preached on "Cattle or Men."
Rev. Thomas A. Boyer, pastor of the
First Christian church, preached on
"The Foundations of Faith." He said
in part:
"No part of any structure is more
important than the foundation. When
the foundation falls, the enterprise
has to be given up. Proceeding upon
the false assumption that the Old and
New Testament scriptures have con-
stituted the substantial foundations
of religion and of religious obligation,
they have been the main point of at-
tack from generation to generation.
While it is true that these books of
holy scripture have done much to
shape and clarify faith in a supreme
being and the issues of an after life,
they did not give it being. Religion
is not because of the book. The book
is because of religion.
"Faith is impregnable, not because
the scriptures are infallible, but be-
cause it is in strictest accord with
the universe. The foundations of faith
are found in the nature of man and
the plan and purpose of the world.
"He who would ignore faith to the
ground must do more than expurgate
the scriptures; he must needs change
the constitution of things, the natural
ontologies of the universe."
This lawyer's "Two Questions" was
the subject of Rev. John D. Russell's
sermon at St. Anthony's Episcopal
church. At evensong a male quartet
rendered several numbers. Oliver
Reece, basso, sang from the oratory
"Elijah."
At the First Baptist church, Alame-
da, Rev. L. P. Russell preached on
"A Secret that Cannot Be Kept."
Rev. Robert Perry Shepherd, min-
ister of the First Christian church,
Berkeley, preached on the disastrous
experience of Uzza in laying hold on
the ark; lest Jehovah should let it fall.
(Chronicles 1-13.)

IMAGINARY CITY ABSORBS MILLIONS

PHILADELPHIA, Sept. 10--A city
which never existed except on paper
is said to have absorbed \$2,000,000
of the money which disappeared from
the Real Estate Trust Company vaults
before its president, Frank H. Hipple,
committed suicide.
This town was to have been built
outside of Alexandria, Va., and was to
be known as New Alexandria. It con-
sisted today of a lot of Potomac marsh-
es and the breezes blow across it with-
out let or hindrance as far as build-
ings are concerned. Hipple was en-
thusiastic in it, and his dream to build there fac-
tories, filled with workmen who were
to patronize the projected car lines and
burn the gas that Hipple and his asso-
ciates were to supply, never material-
ized. The factories are still on paper,
and the gas and street car plants are
as yet figments of a disordered vision.
Bonds of this city and enterprises
were sold by Hipple and then bought
back.
Then the old bonds, as worthless as
confederate currency, were pledged not
only with his own company by him,
but at other confiding banks, to the
extent of hundreds of thousands of
dollars. At last came amazing revela-
tions of the extraordinary financing that
the leader probably forged the names
of the biggest men in town to notes to
the extent of \$200,000, and forced ac-
tions ones to the amount of \$500,000
and more. All of which was used
by him in his looting of the real estate
company, and there stands as revealed
by District Attorney Bell today a re-
cord of criminality that is unique.

YOUNG GIRLS HAVE TURNED FERRYMEN

YORK, Pa., Sept. 10--When Wil-
liam Snyder, the old boatman at
Shen's Ferry, a little river town on
the York county side of the Susque-
hanna, was found dead in his house
some time ago the people wondered
what was to be done for a ferry.
Snyder left two handsome daughters,
Cathryn and Margie, 19 and 16 years.
They had a friend, Jennie Powden,
living for a father to earn a living for
them, the Snyder girls found that they
must leave home or take up some la-
bor near the old residence. They de-
termined to turn ferrymen themselves.
They had a great success, therefore,
when the people getting off the train
one morning on the opposite side of
the river found Snyder's old boat
waiting for them as usual. But it
was a greater surprise when they saw
in place of the last young ferryman
who usually handled the ferry-boat the
two young girls of the Snyder fam-
ily, each leaning on an oar.
From that day to this, in all kinds
of weather, the boat plies regularly
across the river, and the bright, laugh-
ing faces of the girls
